

# AmirSalar Yaghoubian

PROGRAMMER

## Profile

B.Sc. in software engineering, programmer, ex-network administrator with Network+, MCSA & CCNA certificates. I'm a GEEK too!

## Employment History

### Network Administrator, Parseh Pathobiology Laboratory, Tehran

2015 – 2017

Install and support LANs, WANs, network segments, Internet, and intranet systems. Monitor networks to ensure security and availability to specific users. Maintain integrity of the network, server deployment, security, etc.

### Freelance Network Administrator, Self-Employed, Tehran

2017 – 2021

### .NET Developer, Rampart , Tehran

2021 – 2022

I was in the back-end team, in charge of development of My Monshi Startup using .NET Core.

### Freelance Programmer, Self-Employed, Tehran

2022 – PRESENT

Currently , I'm a freelance programmer passionate about crafting efficient and creative solutions. I turn ideas into code with a client-focused approach.
